EXTENSION UPRIGHT

PAGE 1 OF 2

ASY 018

INSTALLATION INSTRUCTIONS

Remove upright caps (if any) by inserting screwdriver into top slot of upright and prying up.

IMPORTANT! Insert pencil, screwdriver, or similar object completely through upright at SEVENTH SLOT from the top. THIS IS TO PREVENT CONNECTOR FROM ACCIDENTALLY FALLING TO BOTTOM OF UPRIGHT.

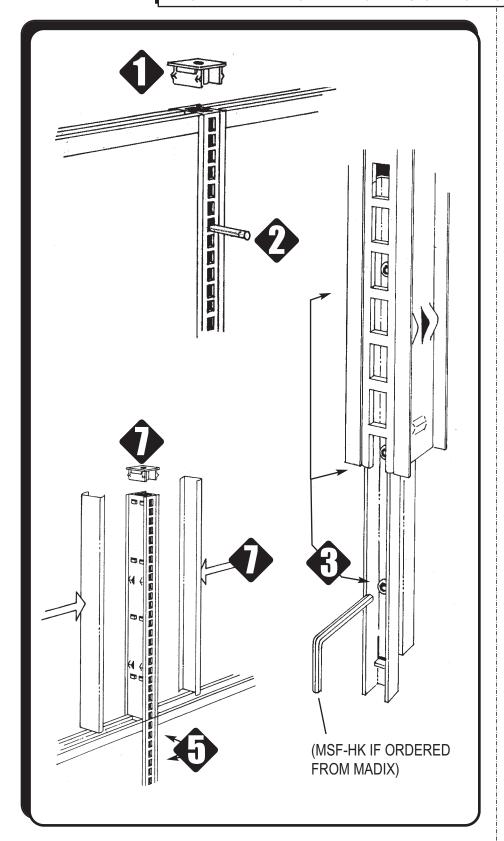

Loosen the three screws of extension upright connector... USE 1/8" ALLEN WRENCH (NOT PROVIDED).

Insert connector into top of upright and seat extension upright against upright.

Tighten the three screws, remove pencil from seventh slot... REPEAT STEPS 2 THROUGH 5 WITH REMAINING EXTENSION UPRIGHTS.

If backs will be inserted, skip to step 8.

Replace upright caps and snap on extension upright end covers, if any.

ASY 018

INSTALLATION INSTRUCTIONS

Remove top splicer spanners from all sections to be extended.

Insert splicer spanners between backs as shown and set in top lances of upright.

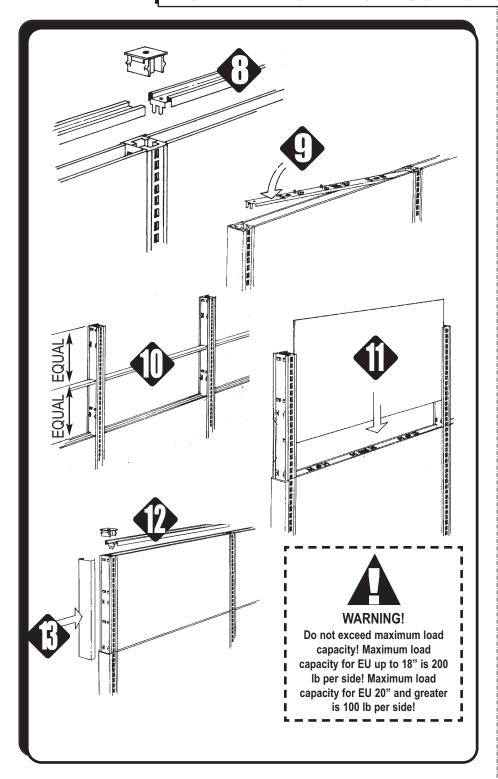

If 48" high extension backs are used, an additional center spanner should be installed at midpoint on the extension upright.

Install extension backs. Slide them in from the top and DO NOT drop on to spanner!

Re-install upright caps and top spanners at top of extended sections.

Install extension upright end covers.
