

END CAP MOUNTING SYSTEM ASY 135 A

INSTALLATION INSTRUCTIONS

The End Cap consists of the following components...

- | | |
|----------------------------|-----------------------|
| 2 Basic 96" Uprights | 1 Hardboard |
| | 1 Pegboard |
| 2 Metal Upright Caps | Lower Back Panel |
| 2 Metal Upright End Covers | 1 Hardboard |
| | 1 Pegboard |
| | Upper Back Panel |
| Spanners: | |
| 1 Lower | 2 Center |
| 1 Splicer | 1 Top |
| | 1 Open Back Stiffener |
| | 1 Rear Kickplate |

1

After assembly of the End Cap(s), the Basic Upright levelers are to be extended a total of 3/4" from the bottom of the leveler bracket to the bottom of the leveler head. (This is an important step to center the slot at 12 1/2" and 84 1/2" with the center of the Mounting Tube.) Install the Upright End Covers and the Upright Top Caps. (When 2 End Caps are used together and are installed immediately next to each other, the Upright End Covers are omitted on the interior Uprights.)

2

The Mounting Tubes are to be installed with their centerlines at 12 1/2" and 84 1/2" above the floor. 1/4-20 Bolts are used for installation throughout. When utilizing Mounting Clamps, the Bolts are to be installed in the slots as close to the Tube as possible and through the existing square holes in the Uprights. The bolt heads are to be on the end cap side and the nuts on the inside of the frame. 1/4 flat washers are used under the bolt heads and under the nuts. The Mounting Tubes are to be attached to all vertical Uprights except the Basic Uprights of the Hypermaxi Units.

3

It may be necessary to loosely install the Mounting Tubes to the Uprights and then loosely install the End Caps to the Mounting Tubes. If so, go back and center the Mounting Tubes as close as possible. Then tighten the Mounting Tube Mounting Clamp Nuts to complete the installation.

In some circumstances, it may be necessary to use an open end or box end wrench on the Nuts and the socket on the Bolt head to tighten them.

Mounting Type **1**

- 1 - Clamp
- 4 - 1/4 Flat Washers
- 2 - 1/4 - 20 Hex Nuts

Mounting Type **2**

- 1 - Clamp
- 2 - 1/4-20x3 1/2 Hex Head Bolts
- 4 - 1/4 Flat Washers
- 2 - 1/4 - 20 Hex Nuts

Mounting Type **3**

- 1 - Clamp
- 2 - 1/4-20x3 1/2 Hex Head Bolts
- 4 - 1/4 Flat Washers
- 2 - 1/4 - 20 Hex Nuts

Notes...

In some conditions the "Tube-to-Frame" Mounting Clamp and the "Tube-to-End Cap" Mounting Clamp may be immediately adjacent to each other.

Views above are approximately 40% size.

Refer to any attached page(s) for specific End Cap applications, where these mounting types are shown. The illustrations may or may not be pictorially exact.
