Attractive & Efficient

Make the most of the sales floor and the backroom areas with flexible product lines that help you utilize every centimeter. Our Maxi Line system gives customers more than 48" (1219 mm) of extra facing space by adding 13/8" (35 mm) to each section. This means more products on display, and more selling opportunities per square foot. Streamline the flow of shopper traffic through every department using the smallest store footprint possible.
