

@FRONT ROLLER SHELF SYSTEM

Create a perfectly stocked shelf instantly with @Front! @Front incorporates multiple small, rolling tracks that work with gravity to automatically feed merchandise to front of shelf, cutting time and labor necessary for store merchandising and facing. Metal dividers can be easily adjusted in mere seconds, accommodating bottled, canned, and boxed goods of varying size and shape. Rolling-track system is fully integrated with the shelf itself, little to no maintenance required. Simply remove the entire shelf for a thorough wash, or wipe the rollers with a damp cloth to remove light dust and debris. Unique, patented design uses all plastic construction, allowing roller replacement from top surface (spare rollers integrated into bottom of every shelf). 5° downtilt improves sight lines for better visual impact than other gravity feed systems. Replaces cumbersome, spring pusher systems.

@Front Shelf

- Provides more merchandising space and better visibility while saving labor and keeping shelves looking fully stocked
- More durable than other self-fronting systems like pushers and slip mats
- Patented system with 3 year warranty
- Clear Fronts available in 2", 3", or 4" heights (51 mm, 76 mm, or 102 mm)
- Dividers available in 1" or 2" (51 mm or 76 mm) heights
- Dividers adjust in 1/8" (.318 mm) increments for maximum space efficiency
- Load capacity is 200 lbs
- Order roller mat and shelf frame separately
- Roller mat is available in beige or black finish, and 14", 18" or 22" depths (356 mm, 457 mm, 559 mm)
- Roller shelf frame has weld-on tag mold standard; DGA2A, DGA2G (gold) DGA2P (painted) aluminum price tag molding optional

@Front Deck

- More merchandising space: shelf functions at a 5° downtilt, slip-mat systems, which require a minimum 10-15° downtilt for similar effect
- Extremely durable, patented rolling-track system with a 3-year warranty
- Choice of 1" or 2" (25 mm or 51 mm) metal dividers and 2" or 3.5" (51 mm or 89 mm) heavy-duty, plastic fronts
- Divider adjusts in 1/8" (3 mm) increments
- Pack of two per box only
- Rests on Standard Base Shelf (SBS-(NW)(ND))
- Load capacity is 200 lbs
- Standard finish: Light Beige
- Alternate finishes: contact your Sales Representative

@FRONT ROLLER SHELF SYSTEM

Introducing the New Gen5 System

Order components for a complete system:

- @Front Pitch Converter: Required for Standard Upper Shelf [SUS-(NW)(ND)], Straight-in Insertion [STP(NW)(ND)] or other shelves to create a downtilt of 6°-7°. (Standard 15° downtilt is too steep for roller systems.)
- @Front G5 Rail Set: Front rail has slot for plastic front mounting, both front and rear have provisions for roller track snap-fit. Includes pine tree fasteners for attachment to standard shelf perforations.
- @Front G5 Roller Track: Single strip of rollers for smaller merchandise, use two or more for larger or heavier applications.

Roller systems are ideal for high volume or high margin merchandise; Madix @Front G5 is an economical alternative to full roller mats.

@Front G5 converts Standard Upper Shelf [SUS-(NW)(ND)], Straight-in Insertion Three Position [STP(NW)(ND)], or other standard shelves to gravity feed, eliminating the labor expense of fronting shelves, making merchandise easily accessible to customers, and ensuring stock rotation while reducing out-of-stocks.

Durable roller segments replaces spring pusher systems and reduce shrink, miss stocked items, and are flexible for merchandising changes.

@Front Shelf Pitch Converter

- Downtilt of 6°-7°
- Compatible with all Standard Upper Shelf [SUS-(NW)(ND)], Straight-in Insertion [STP(NW)(ND)], 18" (457 mm) or smaller
- Available only in beige or black
