 (914 mm or 1219 mm)

Side View

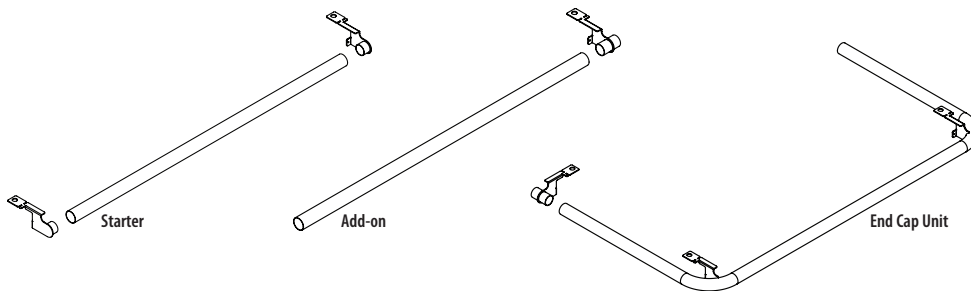

Tubular Metal Bumper System

- Designed to help prevent damage to base shelf tag molding from shopping carts, pallet jacks, and floor buffers
- Starter includes bumper and two mounting brackets
- Add-on includes bumper tube and splicer bracket
- End Cap is designed to mount on Wall Sections at end of gondola runs where wall section width matches width of gondola
- TMBS(NW)(ND)EC cannot be used by itself, it requires the TMBS Starter and Add-on sections
